WINTER DUSK.

The prospect is bare and white,
And the air is crisp and chill,
While the ebon wings of night
Are spread on the distant hill.

The roar of the stormy sea
Seems the dirges shrill and sharp
That winter plays on the tree—
His wild Æolian harp.

In the pool that darkly creeps
In ripples before the gale
A star like a lily sleeps
And wiggles its silver tail.

AN ENGAGEMENT.

A kindly providence called Mrs. Beresford away for a few minutes, and Gwen and I were alone.

"I presume," I observed, "that there was a reason [illegible]king me to call this afternoon?"

"Well, yes," she replied in a hesitating tone. "Something has happened, and"—

She paused. Somehow I did not feel particularly eager to hear the news.

"The fact is," she continued hurriedly, "I didn't want you to hear it from any one else and think me mean, so"—

"It does not give promise," I interrupted, "of being intelligence that will make me deliriously happy."

"It's charming," she cried, "and you must be very pleased! I'm going to be engaged."

"How jolly!" I remarked presently. I required only a few seconds to appreciate the information.

Gwen stirred her tea in a meditative manner.

"Yes, it's very nice," she said. "It is not to be announced until tomorrow to the world at large, but to you, as an old friend"—

I looked at Gwen. Her eyes were still contemplating her tea. "Yes, I suppose I am an old friend," I replied dryly. Then I screwed up my courage and said:

"Well, who is he?"

She blushed. I thought she was looking remarkably pretty.

"Leycester," she said softly.

"Ah," I exclaimed, as if the whole mystery had been solved, "a title!"

Gwen gave a nervous little laugh. "Lord Leycester is very nice. Don't you think so?"

"There's no harm in Leycester," I replied. "He's only stupid."

She shot an indignant glance at me.

"I think he's very nice," she said, attempting to impart an air of conviction to her tone.

"You don't seem to be very positive on the point. It is all very sudden," I added. "I have not heard even a whisper."

Gwen looked rather embarrassed.

"It happened last night," she began.

"At the duchess' dance?"

The duchess was Leycester's mother, an awe inspiring personage.

"Yes," she replied. "You see, mother"—

"I quite comprehend," I broke in. "Your mother and the duchess have been lunching together lately. Heaven has not a monopoly in the making of marriages."

It was ridiculously simple. Gwen was an heiress, Mrs. Beresford was ambitious, and the Leycester family derived their income from Irish estates—a derivation that was every year growing more fanciful in its results.

"It's a pity," began Gwen, toying with a lace handkerchief, "that"—

"I haven't a title? Exactly," I said, rather brusquely.

She appeared not to have heard the remark.

At one time Gwen and I had seen a lot of one another, and I felt that another straw in my favor would have brought the matter to a happy termination. However, it was not to be, and now Mrs. Beresford had taken the matter into her own hands, and Gwen had probably been allowing her tongue to trip lovingly over the pretty name of Lady Gwendoline Leycester until the present arrangement had been arrived at.

"I suppose," she said, thinking it advisable to change the subject, "I shall see you tomorrow at the Fenwickes'?"

"Yes," I said. "And now I must be going," I added, lingering for a moment, hat in hand. "I have to see a physician."

"I thought you were never ill?" she said anxiously. "What is it?"

"An incipient attack of profound melancholia," I replied as I took my departure.

I went home to dinner and afterward strolled round to the club, thinking that smoking room gossip would be pleasanter than my own reflections. I spent the remainder of the evening there, and it was striking 12 when I stood on the steps, contemplating whether I should walk or ride back.

"Going home, Temple?" said a voice. I turned. It was young Leycester.

"I'm your way, if you're walking," he continued.

"Yes," I said, and he linked his arm within mine. He commenced to talk about himself, being quite young.

"I'm an awful fool, Temple," he said presently.

I glance at the fair, boyish looking face and mentally agreed with him.

"I've come a frightful cropper," he continued.

"If you will play baccarat with 'captains' who have forgotten the name of their regiments," I remarked, "you must expect to come croppers."

"And I dare not tell the duchess," he exclaimed. "She has advanced me all she can spare already. I don't know where to raise another penny, and I shall be sold up!"

I began to think of Gwen.

"The worst of it is," he went on, "the duchess has arranged a marriage with a pretty little heiress. The engagement is to be announced tomorrow, and I shan't be able to carry the thing through. I haven't even the money to buy a ring!"

"Do you wish to marry?" I asked quietly.

"No," he said impatiently. "She is a nice enough girl, but it is not in my line. What am I to do? The duchess will simply eat me when she finds out the true state of affairs, and if I can't make some sort of a settlement by tomorrow I shall have to bolt. It's a comfortable position to be in," he concluded dismally.

I reflected. Gwen would not marry me even if this precious young idiot did "bolt," so I might just as well assist in giving her the title she coveted.

"Leycester," I said, "what sum will settle your creditors for the moment and enable you to carry the marriage through?"

He thought for a moment.

"Five thousand pounds would do it. Why?"

"Because," I replied, "believing that a fool should sometimes be helped in his folly, I shall have much pleasure in lending you that amount."

Leycester looked at me in amazement.

"Temple," he cried, "you're a good 'un!"

We returned to the club, and I wrote him out a check. I left him chatting with Barton Fenwicke, a gossip, who spent a large amount of time retailing information he had picked up and inventing much which he had not.

* * * * * * *

The next evening I went to the Fenwickes' dance. I had not been there five minutes before I espied Gwen talking with Alice Fenwicke. I strolled up to them. A waltz was just beginning.

"Are you free for this?" I asked Gwen as a man came up and claimed Alice.

"Yes," she replied. "But you don't want to dance. Come into the conservatory."

I glanced at her in astonishment. She seemed perfectly serious. I led her to a secluded spot, and we seated ourselves.

"Mr. Temple," she said impetuously, "is it true that you have lent Lord Leycester £5,000?"

"How in the name of —" I began.

"Alice Fenwicke told me," she said quickly. "That gossiping brother of hers, Barton, said he had met Lord Leycester at a club and he told him. Is it true?" She looked at me pleadingly.

"Well," I said, "Leycester told me that he had got into a hobble and would have to run away."

"And you helped him," said Gwen softly, "so that I might be Lady Leycester?"

I made no reply. She turned and laid a hand on my coat sleeve.

"Do you know," she said, with a smile, "that I'm very glad that I've found it out before it's too late?"

"Found out what?" I asked, almost trembling with excitement.

She hung her head, a blush spreading over her cheeks.

"That I value somebody's good opinion more than a title," she almost whispered.

"Gwen!" I exclaimed.

Leycester found us presently. He seemed in a particularly happy mood.

"Oh, Lord Leycester," said Gwen, looking up at him frankly, "do you mind if I marry Mr. Temple instead of yourself?"

He burst out laughing.

"Not in the least," he cried, "and, Temple—glorious news—my biggest tenant has come into a fortune and paid up ten years' arrears of rent. I'm out of the wood! By Jove, won't the duchess be mad when she hears I'm not going to marry after all!"

"And Mrs. Beresford?" I murmured.

"I think I can face it," said Gwen confidently.

And she did.—Magnet Magazine.

Municipal Ownership.

Apropos to the agitation of a municipal water works system for Sonoma we give space to the following from the Santa Rosa *Press*: "Municipal ownership and control of water, light and transporation facilities is still growing. A recent statement shows that gas plants comple- operated by one hundred and happent- -eight cities of England and tai- -nd, including almost every r city of consequence, except London: by three hundred and thirty-eight cities of Germany, including thirty of the largest, such as Berlin, Hamburg and Dresden; by Brussels, by Amsterdam, by many cities in the British colonies and by twelve American cities, including Wheeling, Louisville, Richmond and Philadelphia. Electric lighting plants are operated by over two hundred American municipalities, including Dunkirk, Jacksonville, Springfield, Little Rock, Topeka, Bay City, Detroit and Chicago; by many British cities; by some of the Australian colonies, and by thirteen German cities, including Hamburg and Dresden. Street railroads are owned and operated in thirty-three cities of England and Scotland, by some cities of Germany, Switzerland, Holland and of the Austrian colonies, by Toronto, and in a measure by New Orleans. To put the matter in condensed form, municipal ownership of one or more of these street franchises prevails in over seven hundred cities, and is authorized by the laws of today has nearly a score of states and counties.

GEO. BREITENBACH, who has right along opposed the City Trustees in their endeavors to give this town a system of water works, now sees "the handwriting on the wall," and enjoys the distinction of being the first man in Sonoma to prepare for the new water system, which is bound to carry when submitted to the voters. George won't admit this, but we submit, if it is not a veritable acknowledgment that he counts on the water proposition carrying when he goes so far as to lay down a water box and pipe underneath his new cement sidewalk, which he is now constructing in front of his harness shop. If you don't think the proposition is going to carry, George, why go to the needless expense of putting in that water box and pipe?

J. W. RAGSDALE of Santa Rosa, says a Washington dispatch of a late date, will be appointed as Consul to Rio de Janeiro or Buenos Ayers. The Consulship to the former place has been filled the past four years by Thos. L. Thompson of the Santa Rosa *Democrat*.

Two Armies—the Regular and Irregular.

To which would you prefer to belong? The regular, undoubtedly. The irregulars are, admittedly, the most numerous, but they are in a very undesirable state of nondiscipline. Hostetter's Stomach Bitters will soon remedy this want in a disordered liver or bowels. Biliousness manifests itself in yellowness of the skin and eye balls, sour breath, furred tongue, morning nausea, discomfort in the vicinity of the liver, vertigo and sick headache. Hosts of people suffer thus. These signs of insubordination to the governance of health, which also overcomes malaria, dyspepsia, rheumatism, neuralgia, nervousness and kidney trouble. As a means of checking premature decay, hastening convalescence, and mitigating the infirmities of age, the great tonic is without a parallle.

Scrofula Swelling

On the Neck and Great Weakness Caused by Impure Blood—Was Constantly Growing Worse.

"When my son was 5 years old he was in very poor health and we could get nothing to relieve him. At the age of 7 years he began to complain of soreness on both sides of his neck and soon lumps began to gather on one side and grew to half the size of an egg. We then became more uneasy and began to doctor him for scrofula. He gradually grew worse, however, until at the age of twelve years we had lost all hope of his recovery. He became so weak he could sit up but a few minutes at a time. My wife saw Hood's Sarsaparilla recommended as a great blood purifier and we sent and got a bottle. We began giving our boy the medicine according to direction and it was not long before we saw it was improving. He continued taking it until he was in very good health. He is now 13 years old and is well. We recommend Hood's Sarsaparilla for all troubles caused by impure blood." S. M. SILVER, Grouse, Oregon.

Returns to Sonoma a Rich Man.

P. Pinelli, formerly a resident of this place and a brother of A. Pinelli, arrived in San Francisco from Mexico last Monday and is expected here to-day. Mr. Pinelli, who was at one time a blockmaker in the McDonald quarries north of town, left for Mexico ten years ago a comparatively poor man. He returns to visit his Sonoma friends well-to-do and prosperous. He is the owner of several gold mines, one of which he recently disposed of for $35,000. Mr. Pinelli also controls by a sixty-years franchise from the Mexican Government the entire water supply of Minas Prietas, a mining town of 5,000 inhabitants. During his sojourn here he will be the guest of Mr. and Mrs. A. Pinelli.

Another Incendiary Fire.

On Monday night last, between ten and eleven o'clock, Mr. and Mrs. Joost, who reside on their farm in the western suburbs of town (the old Stevenot place), were aroused from their slumbers by the furious barking of their watch dogs. Hastily dressing they investigated the cause of the commotion outside, and discovered the grass on fire in the Mutch field just across the road from their residence. At the same instant a man was discovered running away from the burning grass as fast as his legs could carry him. Securing a barley sack Mr. Joost entered the field, attacked the fire and succeeded in putting it out before it had done any damage.

High School Trustees.

There will be a meeting of the High School Trustees this afternoon at 2:30 o'clock. Teachers for the ensuing term will be selected and other important business transacted. THE CELEBRATION.

BENJAMIN WEED'S BRILLIANT ORATION.

The Ball in the Evening Largely Attended.

The celebration of Independence Day in Sonoma on Monday last brought together a large gathering of people from Santa Rosa, Petaluma, Glen Ellen and the surrounding country. Vehicles of every description commenced to arrive at an early hour in the morning and by 10 o'clock the town, with its decorations and crowds of people, presented an animated appearance.

The Pavilion, where the literary exercises were held, was crowded to overflowing long before the hour advertised for commencement.

The following programme was excellently carried out:

Music.....Orchestra
Prayer.....Rev. Father Quill
Remarks.....President of the Day, Mayor J. H. Seipp.
Music.....Orchestra
Reading Declaration of Independence.....Dr. H. H. Davis
Music.....Orchestra
Oration.....Benj. Weed
Song, "Star Spangled Banner,".....Miss Claire Hope
Music.....Orchestra

The oration by Benj. Weed was one of the most brilliant and original ever delivered in Sonoma county and won for the young orator the admiration of every one present. It burned with patriotism and caused the hearts of all true Americans present to swell with pride. Mr. Weed was frequently interrupted with bursts of applause.

Following the literary exercises came the bicycle, foot and wheelbarrow races and other athletic games, which were won by the following:

Bicycle race for men—First prize, Bert Jones. Second prize, Isadore Gutte of Alameda.

Bicycle race for ladies—First prize, Miss Julie Granice.

Foot race, men—Steve Akers.

Foot race, boys—Geo. Laux.

Foot race, girls—Julie Landgrebe.

Wheelbarrow race, boys—Geo. Laux.

Sack race, boys—Silvy Thomas.

The greased pig was captured by Jep Valente.

At two o'clock in the afternoon dancing was inaugurated in the Pavilion and continued until late in the evening, the music being furnished by the Sonoma Valley Orchestra of fifteen pieces.

The ball in the evening was a brilliant affair and a financial success. It was attended by a large number of party going people of Sonoma and vicinity. The floor was under the excellent management of Robt. Pasch, who did all in his power to make the ball pleasant for everybody present.

The day passed off very pleasantly and visitors from San Francisco, Petaluma, Santa Rosa and other places expressed themselves as having had a delightful time. Nothing occurred to mar the pleasures of the day.

City Fathers.

A regular meeting of the Board of Trustees of Sonoma City was held in the City Pavilion last Wednesday night. Present—Trustees Seipp, Poppe, Hartin and Modini, President Seipp presiding.

The minutes of the previous regular meeting and of the special meetings of June 25th and July 1st were severally read and approved.

Bills as follows were presented, audited, allowed and ordered paid:

Otto Von Geldern & C. E. Grunsky, engineering	$200.00
A. Caminata, labor	3.65
Wm. Green, lumber	10.24
J. H. Albertson, labor and supplies	5.50
J. Anderson, labor	.50
L. Breitenbach, services	3.00
J. E. Robin, salary	15.00
A. M. Haraszthy, hauling dirt and cleaning ditches	25.00
G. S. Harris, sprinkling streets	49.00
Total	$311.89

Further time to report was granted the committee on opening First-street East; also the Street Committee in relation to filling in the low places on Second-street East and the committee to interview Mr. Aguillon in relation to water.

The Clerk presented his annual report for the fiscal year ending June 30th, 1897, which was read, ordered received and referred to the Finance Committee.

A communication from John Revie, requesting a re-appointment as Sexton of Mountain Cemetery was presented, read and ordered filed.

On motion of Trustee Hartin, seconded by Trustee Poppe, John Revie was elected Sexton of the Mountain Cemetery for the ensuing year.

The Board then adjourned.

The Town Has Another Narrow Escape.

A grass fire broke out in the yard in the rear of the Sonoma Valley Bank building on Monday morning last about 11 o'clock. Fortunately the flames were discovered by G. H. Hotz, whose attention was attracted by the crackling of the flames as they leaped into the air. He seized a grain sack, which providentially was lying hard by, and succeeded in putting out the fire before any damage had been done. Had the fire got beyond his control it would have communicated with a number of out-buildings which are veritable tinder-boxes, and in the absence of an adequate supply of water, nothing could have saved the principal business block in town. This is the third time this summer that the same block has been in imminent danger from destruction by fire. The helplessness of this town to fight fire with water and these recent narrow escapes ought to act as a warning to our citizens to do all in their power to assist the City Trustees in their endeavors to provide them with an improved water system for fire and domestic purposes.

Death of Julius Bizzini.

Julius Bizzini, proprietor of Campi's restaurant, Santa Rosa, and one of the best known caterers in Northern California, died very suddenly in that place on Saturday morning last of pneumonia. He had only been sick a few days and the announcement of his death was a great surprise to his many friends, as he was the perfect picture of health and gave promise of a long and useful life up to the Tuesday previous to his death. Julius Bizzini, during his thirteen years residence in Santa Rosa, made friends all over the county. He was whole-souled, genial and a man of the strictest business integrity. Mr. Bizzini was a native of Canton Ticino, Switzerland, and was aged 42 years. The funeral took place Monday under the auspices of the Odd Fellows, of which order he had been a member for many years.

A Petty Thief.

A petty thief entered the gents' dressing room in Union Hall on Monday night, while the Fourth of July ball was in progress, and stole a brand new five dollar hat belonging to Bernard Baer.

The Fourth at Glen Ellen.

The national holiday was fitfully introduced by a grand ball at Mervyn Hall on Saturday night, sixty couple being present. The ladies wore very pretty costumes and all enjoyed the dance. Supper was served at midnight by mine host Harrison in his usual happy style. Dancing then continued till early morn, when all departed, feeling contented with the night's pleasure. Kenwood, Bennett Valley, Santa Rosa and Sonoma were well represented, while the numerous guests from the city, stopping at the hotel, also enjoyed the festivities. Among the amusements during the evening, of which there were several, the one that attracted most attention was little six-year-old Zello Cook with her fancy skirt dancing and songs. She is a marvel and we predict for her a bright future. The day of the Fourth was celebrated in due form. The town was nicely decorated in flags and the bridge over the creek handsomely hung in banners and bunting. An anvil salute was fired morning and night and the small boy was out in large force with fire crackers and other noisy things to let the Americans know that our sister burg was strictly in it. The evening was fine and the fire works showed to great advantage. The display lasted for two hours. Among those present were Colonel Schocken and his estimable wife, Mr. Hirschfeld, wife and several friends, Capt. and Mrs. Randall, Capt. Haskell, John J. Leibert and wife, Doctor Hunter, Mrs. J. Leiver and daughter, Dr. B. M. Gunzburger and wife, Sophia Gunzburger, Miss Lulu Durkin, Josephine Kelly, Mrs. Hamburg and daughter, Mrs. Borneque, Lela Borneque, Mr. and Mrs. L. Atking, Capt. and Mrs. Alfs, Wm. Kunath, Lulu Murphy, Maurice Rosenthal, Mr. Crocker, Mr. Corbaley, A. A. Morrow, H. Lachman, John Bersch, H. Paul Revere's Tower.

It is saddening for the patriotic tourist after he has gazed with reverence at the towers of old Christ church to be told that he is not seeing the original windows from which Paul Revere hung out his lanterns, but a copy, the real tower having been blown down in the great gale of 1804. However, there are plenty of genuine relics inside—where the vast majority of Boston never goes. There are still the old deep window seats, the balcony surrounding the church, with its supporting pillars and upper arches; the top "slaves' gallery," and the antique pews. The bottom of the ancient pulpit of hourglass shape is left us, but the top was given away by the church officials in 1820. The clock under the rail has told of the flight of the man with the scythe for 150 years; the "Vinegar Bible," prayer books, and silver communion service bearing the royal arms were gifts from King George II in 1733; the huge christening basin came from a parishioner in 1730. The marble bust of Washington against the wall was the earliest memorial erected to the Father of His Country, having been placed in position but ten years after his death.—Boston Traveller.

A Boy's Sympathy.

A 14-year-old boy went into his mother's presence with one eye black, his lips swollen and a ragged scratch across his cheek, the blood from which he had wiped off with his shirt sleeve. "Nicodemus," cried the parent as he crawled in, "have you been fighting again?"

"No," he sullenly grunted.

"Then what on earth ails your face?"

"Jim Green's ma's dead," he replied.

"Well, suppose she is. What's that to do with your disfigured face?"

"I seed Jim just now," answered the boy, "and he looked awful sad and lonesome."

"Well?"

"I didn't know what ter do ter make him bright and happy like, and, feelin sorry for him, I jest went up and let him hit me a few licks."

"Did it help him?" asked the mother.

"Help him?" echoed the boy in a surprised tone. "Of course it did. Don't you think it'd make you feel good to bust a fellow that way what had licked you every week for a year?"—Pearson's Weekly.

Major Shirts, of Course.

Famous old Governor Henry A. Wise of Virginia was directly or indirectly the source of many a good story. Here is one that I do not think has found its way into print: One day at a political gathering he was approached by a well dressed individual, who shook hands warmly with him. The governor was a bit bothered and confessed he could not recall the hand shaker's name.

"Why, you must remember me, governor," said the latter. "I'm from Richmond. I made your shirts."

"Why, of course," said the governor with all a politician's tact. "Gentlemen, this is my very excellent neighbor, Major Shirts."—Washington Post.

The Holy House Loretto.

About 15 miles south of Ancona on the main line is the station of Loretto, and on the hillside, about 3 miles from the sea, stands the city. Towering far above the town rise the great dome and campanile of the wonderful fortified church which shelters within it the santa-casa, or holy house, every year the object of pilgrimage of so many thousands of the faithful. On entering the church one sees at once, standing under the dome, a strange low chapel covered with white marble carving and gleaming sculpture. A host of sixteenth century artists—chief among them Sansovino—carried out Bramantes' design for the marble casing of the holy house. But in striking contrast to the rich exterior are the plain and rough stone walls of the interior. The innumerable silver lamps give a dim religious light, and the jewels on the image of the Madonna and the Child—a wonderful black image, carved, it is said, by St. Luke from cedar of Lebanon—scintillate in the gloom like innumerable stars.

Such is the holy house which angels are said to have brought from Nazareth in the thirteenth century in order to save it from desecration by the infidel. But the house was not brought immediately to Loretto. The angels placed it first on a hilltop near Fiume, on the Dalmatian shore. There it stayed for three years, when it was moved again and deposited in a wood on the opposite site side of the Adriatic, near Recanati. The wood was a laurel wood, and the house was consequently called domus lauretana, or house of Loretto. Twice more, however, the house was miraculously moved short distances, till it was at length placed in its present position, not a very convenient one, it might have been imagined, for it was then the middle of the public road.

It seems almost unnecessary to say that there have been those that have made merry at this frequent "translation" of the holy house, yet an innumerable multitude of the great ones of the earth, including many popes and kings, have paid homage to this black Madonna in its rude stone cottage.—Westminster Gazette.

Rewards That Are Sure, but Slow.

"The rewards of honesty and unswerving principle are sometimes slow, but that in the end they are sure and greater for their slow coming admits of no question," writes Edward W. Bok in "Problems of Young Men" in The Ladies' Home Journal. "Our principles are sometimes severely tested, but this testing is given us with a purpose. Holding fast to honorable principles is the basis upon which all sure successes are built. Some have to pass through more fire than others, but I firmly believe that the reward in the end is greater to those. What the world says of a man matters little in such a struggle. It is the great inner satisfaction which comes to a man that counts."

Ordinance No. 53.

An Ordinance calling a special election in the City of Sonoma, submitting to the qualified electors of said city at said election the proposition to incur a municipal debt aggregating Twenty-two Thousand Five Hundred Dollars for the object and purpose of acquiring, constructing and completing a permanent system of municipal waterworks, including all necessary lands, rights of way, water rights, distributing pipes, leases, contracts for the supplying of water, structures, aqueducts, reservoirs, wells, tanks, machinery for the same, and connected with the use thereof, to supply the City of Sonoma and the inhabitants thereof with a sufficient quantity of pure, fresh water, the cost of which proposed waterworks will be too great to be paid out of the ordinary annual revenue and income of said City of Sonoma; providing for the issuance of the bonds of said city for said amount if said proposition be accepted by the qualified electors thereof as required by law; prescribing the time and manner of holding such election, and the voting for or against the proposition to incur said indebtedness and otherwise providing for and regulating said election.

The Board of Trustees of the City of Sonoma do hereby ordain as follows:

SECTION I.

Whereas, It appears to the satisfaction of the said Board of Trustees, and is by the said Board hereby determined and adjudged that the said Board of Trustees, did by ordinance duly passed by a vote of more than two-thirds of all the members of said Board of Trustees, on the seventeenth day of March, A. D. 1897, in the City of Sonoma, at a regular meeting of said Board of Trustees, then and there duly held, determine and adjudge that the public interest and necessity of the City of Sonoma, demand, and the public interest and necessity of said city do in fact demand the acquisition, construction and completion by said city of a permanent system of municipal waterworks, including all necessary lands, rights of way, water rights, distributing pipes, leases, contracts for the supplying of water, structures, aqueducts, wells, tanks and machinery for the same, and connected with the use thereof, to supply said city and the inhabitants thereof with a sufficient quantity of pure, fresh water for domestic use, and for the use of the Fire Department, and for flushing sewers, sprinkling streets and other purposes; and did also in said ordinance determine, and do now determine, that the cost of the acquisition, construction and completion by said city of said system of waterworks, including all necessary lands, rights of way, water rights, distributing pipes, leases, contracts for the supplying of water, structures, aqueducts, reservoirs, wells, tanks and machinery for the same, and connected with the use thereof, is too great to be paid out of the ordinary annual income and revenue of said city; that said Ordinance No. 52, so passed as aforesaid, was thereafter and on the seventeenth day of March, A. D., 1897, duly approved in writing by the Executive of said City of Sonoma, viz: by the President of the said Board of Trustees; and that said Ordinance No. 52 was thereafter in accordance with the order and direction of said Board of Trustees, by the City Clerk caused to be published, and was duly published as provided by law, for two weeks consecutively, to wit: Commencing on the 20th day of March, A. D., 1897, and ending on the 3d day of April, 1897, in THE SONOMA INDEX-TRIBUNE, a weekly newspaper of general circulation published in the said City of Sonoma, and as often as said newspaper was published during that time, to-wit: On the 20th day of March, 1897, the 27th day of March, 1897, and on the 3rd day of April, 1897, such dates being the days of publication of said newspaper; and whereas said Board of Trustees did, by resolution duly passed by the vote of more than two-thirds of all the members thereof, authorize the Committee on Water Works to secure the services of a competent engineer to assist them in their efforts, and whereas said committee did authorize, direct and employ Otto Von Geldern and C. E. Grunsky, competent civil engineers, who had theretofore had successful experience in the work of the acquisition, construction and completion of permanent systems of waterworks to make, prepare and submit to said Board of Trustees plans and estimates of the cost of the acquisition, construction and completion of a permanent system of waterworks to supply said city and the inhabitants thereof with a sufficient quantity of pure, fresh water; that the said Otto Von Geldern and C. E. Grunsky did make, prepare and submit to the said Board of Trustees plans and estimates of the cost of such a system of waterworks; that the said Board of Trustees did, by resolution duly passed by a vote of more than two-thirds of the members thereof, receive, accept and approve said plans and estimates; that as shown by said plans and estimates and as is now hereby determined, the maximum cost of the acquisition, construction and completion of a permanent system of waterworks, including all necessary lands, rights of way, water rights, distributing pipes, leases, contracts for the supplying of water, structures, acqueducts, reservoirs, wells, tanks and machinery for the same, and connected with the use thereof, will amount in the aggregate to Twenty-two Thousand Five Hundred Dollars; that the entire assessed value of all the real and personal property of and in said city is not in excess of three hundred and twenty-five thousand dollars; that the entire annual income and revenue of said city has hitherto been and now is the sum not to exceed Two Thousand Dollars; that there is now no outstanding, unpaid indebtedness of, or due from, said city; that the cost of the acquisition, construction and completion of said system of waterworks, including all necessary lands, rights of way, water rights, distributing pipes, leases, contracts for the supplying of water, structures, acqueducts, reservoirs, wells, tanks and machinery for the same, and connected with the use thereof, will not exceed and will be less than 15 per cent. of the assessed value of all the real and personal property of and in said city.

SECTION II.

Now, therefore, in consideration of the premises, and in pursuance of the acts, ordinances, resolutions and proceedings aforesaid, and of the laws and statutes in such cases made and provided, a special election is hereby ordered and called to be held and conducted in and for said City of Sonoma, California, at the time and in the manner hereinafter fixed, designated and described; at which special election there shall be submitted to the qualified voters of the said City of Sonoma, and there is hereby submitted to the qualified voters of said city to be voted upon at said special election as hereinafter provided, the proposition of incurring a debt amounting to Twenty-two Thousand Five Hundred Dollars by said City of Sonoma, for the acquisition, construction and completion by said city of said permanent system of water works, including all necessary lands, rights of way, water rights, distributing pipes, leases, contracts for the supplying of water, structures, acqueducts, reservoirs, wells, tanks, and machinery for the same, and connected with the use thereof by the said City of Sonoma and its inhabitants.

SECTION III.

The objects and purposes for which said indebtedness is proposed to be incurred are as follows: The acquisition, construction and completion by said City of Sonoma of said permanent system of waterworks, including all necessary lands, rights of way, water rights, distributing pipes, leases, contracts for the supplying of water, structures, acqueducts, reservoirs, wells, tanks and machinery for the same, and connected with the use thereof, to supply said city and the inhabitants thereof with a sufficient quantity of pure, fresh water for domestic use, and for the use of the Fire Department, and for flushing sewers, sprinkling streets and other purposes; and did also in said ordinance determine, and do now determine, that the cost of the acquisition, construction and completion by said city of said system of waterworks, including all necessary lands, rights of way, water rights, distributing pipes, leases, contracts for the supplying of water, structures, acqueducts, reservoirs, wells, tanks and machinery for the same, and connected with the use thereof, is too great to be paid out of the ordinary annual income and revenue of said city, and therefore it is necessary for said city to incur a debt amounting to Twenty-two Thousand Five Hundred Dollars, and to issue bonds of said city to pay for the cost of the acquisition, construction and completion of said system of waterworks and to pay the cost of all thereof.

SECTION VII.

That bonds of the city of Sonoma of the character of bonds known as "serials" to the aggregate amount of Twenty-two Thousand Five Hundred Dollars will be issued to pay for the cost of the acquisition, construction and completion of said system of waterworks if the proposition to incur said municipal indebtedness by said city for the cost of such system of waterworks be accepted by the qualified voters of said city at said special election; and said bonds shall be issued and made payable in Gold Coin or lawful money of the United States in the manner following: One-fortieth part of the whole amount of said indebtedness so incurred shall be payable each and every year on a day in each year, and at a place to be specified therein, and to be hereafter fixed by the Board of Trustees of said city. Said indebtedness, or any unpaid portion thereof, shall bear interest, at the rate of six per cent. per annum, which interest shall be paid in semi-annual installments, payable on certain days in each year, and at a place to be specified in said bonds and to be hereafter fixed by the Board of Trustees of said city.

SECTION VIII.

Said special election hereby called as aforesaid, shall be held on Monday the twelfth day of July, 1897, and shall be held and conducted, and the votes thereat received and canvassed, and returns thereof made and the result thereof ascertained and determined as herein provided and according to the law governing such elections in the City of Sonoma; and the polls for such election shall be and remain open from sunrise of the said twelfth day of July, 1897, to the hour of five o'clock in the afternoon of said day.

SECTION IX.

Notice of the said special election shall be published for not less than two weeks prior to said day of election, and after the final publication of this ordinance as hereinafter provided, in at least one of the newspapers published in the City of Sonoma, in accordance with the terms and provisions of the statutes in such cases made and provided.

SECTION X.

Each of said ballots shall have printed thereon the following caption or heading, to-wit: "MUNICIPAL TICKET," and shall have printed thereon and under said caption the following words, to-wit: "Proposition for incurring an indebtedness by the City of Sonoma to the aggregate amount of Twenty-two Thousand Five Hundred Dollars for the acquisition, construction and completion by said city of a permanent system of waterworks, including all necessary lands, rights of way, water rights, distributing pipes, leases, contracts for the supplying of water, structures, acqueducts, reservoirs, wells, tanks, machinery for the same, and all other things necessary for the proper use thereof, as set forth in Ordinance No. 52 of said city." Underneath the last foregoing words upon each of said ballots shall be printed the following: "To vote for or against incurring said indebtedness stamp a cross (X) to the right of and against the answer you desire to give." Underneath which shall be printed in one line the following: "For incurring the indebtedness," to the right of which shall be printed in one square the word "Yes" with a blank square to the right thereof, and immediately below the same there shall be printed in one line the following: "For incurring the indebtedness," on the right of which there shall be printed in one square the word "No," with a blank square to the right thereof. SECTION XI.

The place of voting at said special election shall be in the building known as the City Pavilion, situated in the public Plaza in said City of Sonoma; and the officers to conduct said election are respectively defined, designated, selected and appointed as follows, to-wit: Judges, L. Litzius and A. Bulotti; Inspectors, V. Jensen and J. D. Wagnon; Ballot Clerks, Jas. H. Albertson and Peter Keil; Tally Clerks, L. Breitenbach and H. C. Lutgens. All persons qualified by law to vote at municipal elections in said city shall be qualified to vote at said special election.

XII.

As soon as the polls are finally closed at said special election, the officers of election shall canvass the votes cast at said special election for and against incurring said indebtedness hereinbefore mentioned, as nearly as practicable in the manner provided by law for canvassing votes for municipal officers at elections held in the city of Sonoma.
